Night Class Instruction in Mining Centres

The "Schedule of Grants in aid of Technical Education" recently announced by the minister of education includes, among others, a provision of special importance to those interested in night class instruction in mining centres. In that part of the schedule dealing with night classes the following provision is made:

(A) In any school district including a city, town or village, in which fewer than 30 teachers are employed; or in any other school district that has obtained permission from the minister to establish night class instruction:

1. To the school board; (A) When night class instruction in only the ordinary school branches is provided an annual grant equal to 30% of the cost of tuition up to a maximum grant of \$100; (B) When night class instruction in vocational and technical subjects in addition to that in the ordinary school branches is provided an annual grant equal to 50% of the cost of tuition up to a maximum grant of \$150.

PAYMENT OF GRANTS

1. The grants for the encouragement of instruction in the subjects and courses indicated in the Schedule are payable only when the organization, accommodation, equipment, courses of instruction, instructors and supervisors have been approved by the minister of Education.

If the provisions made by the school board and the character of the instruction be not fully satisfactory and if there be sufficient evidence of a bona fide effort to bring them up to standard the minister may authorize the payment of such portion of the grant as he may determine.

2. In order to have the quality of instruction maintained at a high standard the instructors and supervisors of the courses of instruction affected by the said grants must hold such certificates and meet such requirements as the minister may prescribe.

3. To insure that unity of purpose and effort necessary to secure the fullest and most economical use of all accommodation, equipment and specialized services available the courses and classes affected by these grants shall form an integral part of the school system; under the control of the school board and shall be under the general direction and supervision of the superintendent of schools in those schools where such an official is employed by the board and in all other cases under the direction of a principal to be designated as the supervising principal of the schools of the district.

4. The school board shall cause to be prepared and transmitted to the department of education within thirty days after the close of each calendar year an annual report and such other reports as may be required by the Minister from time to time. Such reports shall be in form prescribed by the Minister.

5. In regard to night class instruction the schedule of grants shall be deemed in force on and after October 1st, 1914. The schedule as a whole shall become operative on and after January 1st, 1915.

In order to assist and guide those locally responsible for the night classes of instruction in mining centres the following approved courses have been outlined. The courses have been planned to meet the needs of the community in a real and practical way. The preparatory courses are essential for any student who hopes to make satisfactory progress in the coal mining courses. While preparing specifically for the miner's examinations the courses in coal mining should not be made wholly subservient to this end. Efficiency as miners is the real purpose to be kept in view. The classes in English for the non-English speaking should be found in every centre where there is sufficient need to justify their organization.

A. Courses in English for the non-English speaking; instruction in English, oral and written, to assist those who are unable to use the language to gain at least a working knowledge of the same. The Berlitz method of instruction is recommended, but its use is not compulsory.

B. Preparatory Courses: 1. English; neat and legible writing, spelling, and facility in the correct use of the vocabulary of the miner, correction of grammatical errors, the building of sentences and paragraphs, simple description and narration relating to mines and mining operations, personal and business letters, practice in formulating and writing answers to examination questions.

2. Mathematics: fundamental processes, factoring, greatest common divisor, least common multiple, fractions—common vulgar and decimal, square and cube root, mensuration, simple algebraic processes, solving simple equations, quadratic equations, trigonometric functions, solution of triangles, transpositions and substitution in formulae such as those

used in theory of ventilation, discharge of pipes, etc., elementary surveying and levelling. 3. Mechanics and Elementary Applied Science: Discussion and measurement of physical quantities, principles of dynamics, their application to practical problems, properties of matter, elementary statics, harmonic motion, motion of crank and connecting rod, friction, calculation of moments of inertia, rotation, elasticity, energy and its transformations, electricity and electrical quantities, gases, explosives, fuels, steam, chemistry of the coal mine and coke oven, machine construction, reading of blueprints and drawing of simple plans to rule.

C. Courses in Coal Mining: 1. Preparation for Position of Fire-Boiler—standing—Third-Class Certificate; a. Methods of supporting roof and sides under various conditions. Proper angle to set props—bearing against old workings—shoring. b. Ventilation: The properties, identification and proper estimation of gases met with in mines—natural and artificial ventilation. The distribution and control of the air underground. c. Explosions in mines—causes and prevention—rescue operations—apparatus and organization. d. The use of electricity from point of view of safety in coal mines. e. The Mines Act.

2. PREPARATION FOR PIT-BOSS, Standing—Second-Class Certificate. a. Systems of laying out and working under varying circumstances of coal and other stratified deposits included under the Mines Act. Methods of supporting roof and sides, boring agents for coal, work—shoring, etc. b. Ventilation: The properties, identification and practical estimation of gases met with in mines, natural ventilation, fans and other ventilators. The distribution and control of the air underground, conditions, use and testing of safety-lamps. c. Explosions in mines—underground fires and inundations, their causes and prevention—rescue operations—apparatus and organization. d. Machinery and plant in common use in or about a mine, including the use of electricity with special reference to safety. e. Elementary Surveying and Levelling—Preliminary course in mathematics. f. The Mines Act and orders—writing of reports.

3. Preparation for Mine Manager's Standing—First-Class Certificate. A. PHASE I: WORKING. 1. Sinking, prospecting for coal, location of shaft or slope, relative advantages of each; systems of laying out and timbering, under varying circumstances, of coal and other stratified deposits included under the Mines Act. Collieries, shafts or cages, guides and runways, scaffolds, special modes of sinking in soft or wet or running ground, surface arrangements, supplies and general precautions in sinking.

2. Methods of working, laying out pit-bottom, size of shaft pillars, direction of main roads, tools and appliances used underground, boring machines, drilling machines, pick machines, dose and chain rods, pneumatic drills, explosives and electric firing, special methods of breaking down coal, choice of methods as regulated by the various factors, thickness and inclination of seam, cleat and type of coal, shape of property, liability to spontaneous combustion, faults, condition of roof and floor, depth of workings, etc., robbing pillars, driving on face, size of pillars and rooms, longwall retreating and advancing—illustration of methods of working the Mines Act. Collieries, shafts or cages, guides and runways, scaffolds, special modes of sinking in soft or wet or running ground, surface arrangements, supplies and general precautions in sinking.

3. Supporting Excavations: effects of thrust and creep, different methods of timbering levels, proper angle to set props, methods of supporting with steel, reinforced concrete masonry, spilling in loose ground, sagging of face, timbering of longwall face, drawing of props.

4. Handing-Mine cars, rails, curves and grades; resistance to traction; manning, horse handling, inclines, back balances; main and tail rope, endless rope, electric locomotive, compound air locomotives, general care and upkeep of handcart facilities.

5. Pumping-Siphons: kinds of pumps, steam and compressed air, centrifugal and turbine electric pumps; water shafts and arrangements for hoisting acids and gritty water; water ramps and standpipes; special precautions in driving towards and tapping bodies of water; wooden, masonry and concrete dams; calculations and size of pumps; horsepower, etc., to handle given amount of water.

6. Winding—Head frame, winding pulleys, etc., tubs, skips and cages; safety attachments; calculation of proper size of rope for certain conditions of winding; methods of capping and splicing of ropes; inspection and care of ropes of hoisting engines for definite output; direct setting and second motion engines;

THE BLAIRMORE TRADING CO.

"THE STORE THAT SELLS FOR LESS"

compensation by balance rope, flat rope with reel, conical draw and taper rope; cage indicators; steam and lever brakes; detaching hooks.

7. Surface arrangements; location of engines, boilers, bankhead, tracks, etc., picking belts and dikes; triples, screws, pockets, etc., coal washers.

1. Theory; the physical and chemical properties of the gases commonly met with in coal mines; chemistry of explosions; explosive limits of mixtures of fire damp and air; and influence of other gases and coal dust on the same—sources and effects of heat in mines—Laws of ventilation; friction of air in mines—the distribution and control of air underground—formulas—transposition, substitution, and solving of formulas; solving of practical problems illustrating the different conditions in ventilating coal mines.

2. Practice: Natural ventilation—furnace ventilation—ventilating fans—convection and practical operation of different fans; fan engines and motors; surface arrangement of fans and openings ventilating workings, doors, regulators; brattice; air openings; ventilating workings; doors, regulators, lighting illumination of pit bottom; naked lights; forms of safety lamps, use and care of lamps, illuminating oils, locks, relighting devices, fire-lamp indicators; electric lamps, candles, outbursts; spontaneous combustion, blown out spots, coal dust, precautions against fire and explosions; brushing gas out of pockets and old workings, sealings of fire, adaptation to method of opening out and working, precautions in approaching old workings, rescue work after an explosion.

C. Surveying: Surveying, Levelling and Drawing—Determination of magnetic

declination—loose and fast needle surveying underground and on the surface—Calculation of areas and volumes—Contours lines and levelling—Connecting of surface and underground surveys—Triangulation—Plotting by protractor and co-ordinates—Mines plans and sections—the use, care and testing of instruments.

D. Geology: Stratified rock and other stratified formation, outcrops and dip of beds, monoclinical, anticlinal and synclinal domes, aynclinal basins, coal beds, rolls, unconformities, normal and reverse faults, dumb faults or washouts, rules for finding continuation of seam beyond faults, cleavage or rock, cleat, type and red coal.

E. General Management and Mining Legislation: Organization and general conditions, Mines Act and orders and other legislation, applied to mines under the Mines Act.

F. Capital and Labor

If the old Hebrew law was in force here, and a tenth of a man's income reverted to the Lord, He would get five cents a ton for making the coal and furnishing his own raw material. The miner would get 50 cents for digging it, the Coal Company shareholders nothing, for they are not paid a dividend, while the C. P. R. get \$2.05 a ton for transportation in ear lots to Spokane. Verily it is better to be a C. P. R. director, than to be a Coal Company shareholder, or a miner or He who controls the Union.

BLAIRMORE, ALBERTA

The patriotic concert given in the Oddfellows' hall last night under the auspices of Victory Lodge, I.O.G.T., was a well-attended and successful affair, and a splendid example of what local talent can do to entertain. The programme was varied, including songs, choruses, readings, dances and speeches. Near the close of the concert Rev. Mr. Hunter announced that word had just been received of the promotion of Walter Howe to the rank of corporal. He also introduced Charlie Roy to the audience, who greeted him with rousing cheers.

W. J. BARTLEY, Proprietor

Blairmore, Alta., Fri., Nov. 20, 1914**Comic and Witty Sayings**

It is easy to run down the ac-
complishments of your neighbors,
but harder to run ahead of them.

A good boy may not become a
handsome man, but a nice boy
surely becomes a pretty woman.

But few men can handle a hot
lamp-chimney and say there is no
place like home at the same time.

Cosmetics are to the face what
affection is to the manner; they
impose on few and disgust many.

A conscience is like a corner-lot.
Everybody would like to have it,
but few are willing to pay the price.

If a man can be happy and con-
tented in his own company, he will
generally be good company for
others.

An old lady says she hears
every day of civil engineers, and
wonders if there is no one to say a
civil word for conductors.

**Bert White Dies
Near Gateway**

Word comes from Gateway that
the body of Bert White was picked
up in the bush near there last
week.

Bert was well known in hockey
circles through The Pass, being for
several seasons connected with the
Coleman team, and only last
season took part in the games at
Blairmore.

Mr. White had been visiting
friends at Gateway. His health
had not been good for some time.
About a week previous to the find-
ing of the body he went out for a
walk and did not return, and it is
presumed he became lost and per-
ished from exposure. He was
unmarried, and was born at Wood-
stock, Ontario. He had many
friends in The Pass, to whom the
news of his death will come as a
great shock.

Tomorrow will be tag-day for
the local Red Cross Society. Buy
a tag.

FOR RENT—A four-roomed
house, water, light, etc. Apply to
George H. Wyckherly, Frank.

The Scotch dances by the Misses
McLellan (2) and Misses Gebu (2)
at the patriotic concert last night
were well received.

WANTED TO BUY—A second-
hand two-seated sleigh. Must be
in good condition. Apply to E.
Menzel, Blairmore Liquor Store.

As we go to press word reaches
us that the store and residence of
Mrs. J. B. Rudd at Maple Leaf
was totally destroyed by fire this
morning.

At a meeting of the school board
on Wednesday evening it was de-
cided to advertise for pupils for the
proposed night classes. Those de-
sirous of enrolling should do so
immediately.

The ladies of the Presbyterian
Guild will hold a ten-cent tea and
sale at the home of Mrs. C. E. F.
Hiscocks on Wednesday evening
next from 3 to 5.30. A pressing
invitation is extended to gentlemen
as well as ladies to attend.

Charlie Roy, the fourth Blair-
more boy to volunteer for the
front, left for Calgary this morning
in company with Charlie Oumette
and four others from Coleman. A
large turnout of citizens, headed
by Professor Patterson's orchestra,
escorted "Charlie" to the station,
where all kinds of good wishes
fared him.

BY-LAW NO. 36

**A By-Law To Provide For The
Borrowing Upon Debentures Of
The Further Sum of \$4,500.00
Necessary To Pay For Completing
Certain Municipal Works.**

WHEREAS The Town has constructed
a system of waterworks as a Municipal
Public Work, and by-Laws have been
passed providing for borrowing upon
debentures the sum required to pay the
estimated cost thereof;

AND WHEREAS the actual cost of
such works has exceeded the sum pro-
vided therefor;

AND WHEREAS owing to the in-
crease in the rate of interest on loans
since such works were undertaken the
debentures authorized by the said By-
Laws to be issued could only be sold at a
discount involving a deficiency of \$4,500.00
in the sum required to be provided;

AND WHEREAS it is necessary to
borrow the sum of \$4,500.00 required for
the purpose aforesaid on the credit of the
municipality of the Town of Blairmore,
and to issue debentures therefor, pay-
able during a period of twenty years
at the rate of six per cent. per annum,
and the same shall be repayable in
equal annual installments in the sum of
\$362.40 of principal and interest from
the date on which this By-Law
takes effect;

AND WHEREAS the amount of the
whole rateable property in the Town of
Blairmore as assessed for the last revised
assessment roll is \$338,700.00;

AND WHEREAS the total amount of
the existing debentures outstanding of
the municipality of the Town of Blair-
more is the sum of \$56,940.00, of which
no part of the principal or interest is in
arrears;

AND WHEREAS the said Town of
Blairmore has obtained from the Provin-
cial Board of Health a certificate
signed by the chairman, certifying as is
provided in Sections 11 and 12 of the
Public Health Act 1, Geo. V., 2nd Ses-
sion 1910, Chapter 17;

SOW, THE TOWN OF THE MAYOR
AND COUNCIL OF THE TOWN OF
BLAIRMORE enact as follows—

1. That the Council of the Town of
Blairmore are hereby authorized and
empowered to borrow on behalf of the
Town of Blairmore a sum of \$4,500.00
of money not exceeding in the aggregate
the sum of \$4,500.00;

2. That the sum of \$4,500.00 is hereby
appropriated for the completion of the
present system of waterworks as a Public
Work of the Town of Blairmore;

3. The said indebtedness of \$4,500.00
shall be paid during a period of twenty
years from the date on which this By-
Law is taken effect, and shall bear in-
terest at the rate of six per cent. per
annum, and the same shall be repaid in
such manner that the installment of principal
and interest shall be equal in each year
of the twenty years, namely \$362.40;

4. That the said sum of \$4,500.00 shall
be raised by a loan upon the credit of
the Town, and the Mayor and Secretary-
Treasurer are hereby authorized and
empowered to issue debentures therefor,
said debentures to be in the sum of
\$100.00 or any multiple thereof not ex-
ceeding in the aggregate the sum of
\$4,500.00, payable in twenty equal
payments or installments of \$362.40 annually
of principal and interest from the date of
this By-Law, and the coupons shall be
attached to the said debentures for the
principal and interest payable in the
mature;

5. That the said debentures shall be
sealed with the corporate seal and
signed by the Mayor and countersigned
by the Secretary-Treasurer of the Town
of Blairmore;

6. That the coupons shall be signed by
the Mayor and countersigned by the
Secretary-Treasurer of the Town of
Blairmore;

7. That the said debentures and coupons
shall be payable at the office of the
Secretary-Treasurer of the Town of
Blairmore;

8. During the currency of the said
debentures there shall be raised an-
nually by a special general rate on all
the rateable property in the said Town
at the same time and in the same man-
ner as the ordinary town taxes the sum
of \$362.40 to meet the annual install-
ment of principal and interest;

9. That this By-Law shall take effect
and come into force on the first day of
January, 1915;

10. The votes of the Burgesses of the
Town of Blairmore shall be taken on
Monday, the Fourteenth day of Decem-
ber, 1914, at the office of the Secretary-
Treasurer, commencing at the hour of
ten o'clock in the forenoon and contin-
uing until the hour of seven o'clock in
the afternoon of the same day and the
returning officer for the taking of the
said vote shall be Chas. E. F. Hiscocks;

11. The Returning Officer shall sum
up the votes for and against the By-Law
on Tuesday, the fifteenth day of Decem-
ber, 1914, at the hour of ten o'clock in
the forenoon in the said office of the
Secretary-Treasurer and there declare
the result, and shall forthwith certify to
the Council under his hand whether or
not two thirds of the Burgesses voting
upon the By-Law have approved of the
same;

12. That this By-Law shall be finally
considered by the Council at a meeting
to be held on the twenty-eighth day of
December, 1914, commencing at the
hour of eight o'clock in the afternoon
and if the same has been approved to by
the Burgesses shall be finally passed.

Read in open Council the first and
second time this sixteenth day of No-
vember, 1914.

HENRY E. LYON,

CHAR. E. F. HISCOCKS,

Secretary-Treasurer,

NOTICE is hereby given that the fore-
going is a true copy of a proposed By-
Law which shall be taken into consid-
eration by the Council of the Town of
Blairmore, after being voted upon by the
Burgesses, that the date of the first pub-
lication of the proposed By-Law is Fri-
day, the Twentieth day of November,
1914, in the BLAIRMORE ENTER-
PRISE, a newspaper published in the
Town of Blairmore, and the votes of the
Burgesses will be taken upon the propo-

DAYTON, OHIO, U.S.A.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion, in
British Columbia and Alberta, the
Yukon Territory, the Northwest Territo-
ries, and the North-West Mounted Police
lands may be leased for a term of twenty-one
years, or less, at a rental of \$1.00 an acre. Not
more than 200 acres may be leased to one ap-
plicant.

Application for a lease must be made by the
applicant in person, or by a duly authorized
agent of the district in which the rights applied for
are situated.

In leased territory the land must be de-
veloped within a specified period of time, and
sections, and in unleased territory the tract
applied for must be developed within a specified
period of time.

Each application must be accompanied by a
fee of \$5 which will be refunded if the rights
are not leased, but not if they are. A royalty
shall be paid on the marketable coal at the rate
of ten cents per ton.

The person operating the mine shall furnish
the Agent with returns accounting for the full
quantity of marketable coal mined and sold
and the royalty thereon. If the coal min-
ing rights are not developed within the specified
period, the lease may be terminated.

For full information application should be
made to the Secretary of the Department of
the Interior, Ottawa, or to any Agent or Sub-
Agent of the Dominion Lands Agency.

W. W. CORY,

Deputy Minister of the Interior.

A.C. Donahoe, publication of this ad-

vertisement will not be paid for—6439.

**SYNOPSIS OF CANADIAN NORTH WEST
LAND REGULATIONS**

THE sole land of a family, or any male or
female, may be homesteaded a quarter-
section or less in Dominion land in Manitoba,
Saskatchewan or Alberta. The applicant must
appear in person at the Dominion Lands Agency
or Sub-Agent for the District. Entry by proxy
may be made at any Dominion Lands Agency
(but not Sub-Agent), on certain conditions.

Under the homestead system upon and culti-
vation of the land in each of three years,
one-quarter may first within nine miles of his
homestead on a farm of at least 40 acres, on
certain conditions, a habitable house is re-
quired, except where residence is performed in
the vicinity.

In certain districts a homesteader in good
standing may pre-empt a quarter-section along
side his homestead. Price \$20.00 per acre.
The monthly residence in each of three years
after earning homesteaded patent; also 20
acres extra cultivation. Pre-emption patent
may be obtained as soon as homestead patent
on certain conditions.

A settler who has exhausted his homestead
right may take a purchase homestead in other
districts. Price \$20.00 per acre. District—Must
reside six months in each of three years, and
cultivate 20 acres and erect a house worth \$20.
The area of cultivation is subject to reduction
in case of rough, scrubby or stony land.
Live stock may be substituted for cultivation
under certain conditions.

province of Alberta, this sixteenth day
of November, 1914.

CHAR. E. F. HISCOCKS,

Returning Officer.

Red Cross Notes

The following is from a letter
from Provincial Secretary, Miss
Pinkham—

TO THE LOCAL BRANCHES—
It is not desirable or legal to use
the name of the Society or its em-
blem in connection with entertain-
ments, or the sale of any article,
but in the discretion of the Local
Branch arrangements may be made
covering entertainments and the
sale of articles, provided advertise-
ments are restricted to the words,
"For the benefit of the Red Cross
Fund."

And such explanatory matter with
respect to the objects of the Society
as may be deemed advisable.

Miss Pinkham also advised that
the Red Cross Society had under-
taken to supply the need of the
Alberta contingent with belts and
handkerchiefs and asked what
amount this Branch would give
toward the purchase of these arti-
cles; belts being procurable for
fifty cents each, and handkerchiefs
from thirty-three to forty cents
a dozen. At a meeting of the
committee of this Branch on
Thursday afternoon, a motion was
passed to forward \$10.00 for the
purchase of belts and \$5.00 for
handkerchiefs.

IMPORTANT—Saturday will be
Local Red Cross Tag-Day. Be sure
to get your tag. Remember the
proceeds are for the soldier lad.

The membership listons are at
here. Each member may secure
their front their supervisor at a
cost of ten cents.

DECLARES WAR ON COLD
A cross-aud of a location which aims
at that common colds may become
uncommon within the next genera-
tion, has been begun by prominen-
New York physicians. Here is a list
of the "do's" which the doctors
say will prevent the annual visitation
of the cold:

"Don't sit in a draughty car."
"Don't sleep in hot rooms."
"Don't avoid the fresh air."

"Don't stuff yourself at meal time."
Over-eating reduces your resistance."
To which we would add—when you
take a cold get rid of it as quickly as
possible. To accomplish that you
will find Chamberlain's Cough Remedy
most excellent. Sold by all dealers.

FOR SALE

Bellevue Happenings

John Patterson was visiting his brother in camp this week.

J. J. Raynor, of Medicine Hat, was a visitor on business this week.

Davis Davidson and family went to Fernie this week on business.

Jack Leonard has accepted a position as watchman at the Maple Leaf hotel.

Mr. Grimshaw, formerly of Leigh & Grimshaw, Hillcrest, has gone to the front.

Mrs. A. Burey gave an at-home to a large number of friends on Wednesday.

Mr. and Mrs. Albert Hallworth gave an at-home to a number of their friends on Tuesday evening.

Mr. Creighton, of the local bank staff, left this week for Claresholm, where he has accepted a similar position.

The skating season has started on Connelly's lake, and a large number of the young blood took in the sport on Sunday.

Dr. Moore is at Calgary completing his course in army medical work. He intends going to the front at the first opportunity.

Rev. and Mrs. Cook entertained the Sunday school teachers and officers, and their friends this week, when an enjoyable evening was spent.

A social evening is to be held in the Methodist church on Tuesday evening next, November the 24th. A small entrance fee of 25c will be charged.

Don't forget the dance in the Works's hall, under the auspices of the St. John Ambulance Association, on November 25th. Come and have a good time.

The reason tickets for the Bellevue rink are on sale at A. I. Blais' store. The prices are as follows: Children \$1.50, ladies \$2.50, gent's \$3.50, family tickets \$7.00 (all ages). Buy one and help out the boys.

A busy evening was spent by local Oddfellows on Wednesday, when a special meeting took place for the purpose of initiating candidates. About eleven were initiated, making the total membership of the body lodge 91. It is expected that the membership will pass the 100 mark before the New Year. A delegation from Blairmore was in attendance on Wednesday night.

Cowley Happenings

Mrs. J. Swinney left last week for Oregon, where she intends spending the winter.

Dick Alexander has leased the half section belonging to M. LaFontaine, west of town.

Albert Cleland has returned from his hunting trip to The Gap. He was successful in landing a deer.

Gordon Robinson spent the latter part of the week in the Porcupines, the guest of Cliff Crawford.

The fall ploughing was cut short by the recent storm. 22" below zero felt something like winter.

Mike LaFontaine, of Kiamondale, is a visitor among old friends in Cowley this week. He is looking well and happy.

The dance proposed to be held in the schoolhouse on Friday was postponed on account of the storm, and will be held this Friday night.

Say, what would you think of any one donating to the Turkey relief fund? Would you count them as allies? Nothing doing!

Mrs. E. LeBlanc is moving her stock of millinery to Pincher Creek this week. It would be advisable to get your fall hat before she goes, or a new dress or two.

Gilbert Dewry is visiting friends in Cowley after an absence of two years. He says Cowley looks good to him, as the last two places he has lived in were literally dead; Calgary and Port Arthur.

Frank Happenings

P. H. Dohar, of Fernie, was down the early part of the week.

Bobby Jordan, of Bellevue, was down on Sunday last.

See the Frank Meat Market ad. on the front page of this issue.

Jim Boyle, of Bellevue, was visiting his brother here on Sunday.

Mrs. G. Montabetti went to Hillcrest on Monday to attend the funeral (?) of Miss Bradshaw.

Mrs. J. Grimshaw, of Hillcrest, was visiting Mrs. G. Montabetti for a few days this week.

Mr. Dorenbecker, of cigar fame, came in from Fernie this week and registered at the Sanatorium.

The association of stationary engineers will meet at Coleman on Friday night.

Mr. Gill, representing a Winnipeg wholesale house, is at the Sanatorium this week with a good line of leather goods, shoes, etc.

Marsh's recruits will play Frank first team on Tuesday evening. This is expected to be the derby day of the season. Everyone should get out and get familiar with the game.

Rumor has it that Blairmore is going to organize a basketball team. If this is correct, Capt. Marsh, on behalf of the recruits, hereby issues a challenge to them or any other team in the Pass.

Rumor had it last week that a number of people had to be turned away from the Sanatorium hotel because of lack of accommodation. We are pleased to report that such was not really the case, for there are not more than one hundred guests registered at this popular hostelry at the present time.

Marsh's recruits met Bellevue last night on the Frank basketball ground. The teams were made up as follows: Frank—Marsh and Tristram, guard; Patterson, right-wing; Parker, centre; Kennedy, left-wing; Bellevue—Fisher and Scott, guards; Cook, left-wing; Williams, centre; Galvin, right-wing; P. Harvey, referee. The game was a good one all through and resulted in Frank's victory by a score of 27-10. We regret that space will not permit us to go into details of the game.

A meeting was held in the Frank public school on Monday evening last in connection with the proposed night classes. Several persons were chosen to try and organize the classes, and a further meeting of the school board and instructors will take place Friday evening for the purpose of finding how many are enrolling in such classes. Now is the time to get the thin edge of the wedge entered, as we understand that the government is going to push the night schools along if only a start is made. Get your name down now.

Mountain Mill, consequently there was no service here on Sunday.

The home of Mr. Durin has been quarantined for measles. It is to be hoped that the disease will not spread, as times are already tough enough because of the war. We wish for the little one's speedy recovery.

Isn't a good thing that those Turk collectors were lodged in goal. They might have got away with quite a bunch of money that the allies should get from our generous citizens. Oh, brave ones, when you have a dollar to spare send it in to the ladies who are doing so much for these distress. Never mind giving it to strangers.

IT'S A
GODSEND
TO TOMMY
to know you are going
to look after his depend-
ants through the
Blairmore Branch
of the
PATRIOTIC FUND

A NIGHT OF TERROR
Few nights are more terrible than that of a mother looking on her child choking and gasping for breath during an attack of croup, and nothing in the house to relieve it. Many mothers have passed nights of terror in this situation. A little forethought will enable you to avoid all this. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. Keep it at hand. For sale by all dealers.

"Temperance"

Sister and Brother:

Brother Bartlett has promised the readers of his paper for some weeks past a discourse from your humble servant on this his favorite topic, Temperance.

You all must know how dear to my heart and soul this subject is, and if there is anything in my power, either through prayer or persuasion, that I can do to prompt this noble cause it would give me far, far more satisfaction than a drunken brawl, the outcome of which would net a fellow practitioner and myself \$50 each to square the participants with the law.

Since childhood, when I got intoxicated on cider, I have always been a firm and staunch believer in temperance. What does booze get you, I ask? Nothing but a sore head and a reaching out for your ever step to get out from the habit grows on you? Personally, I never did, because I never had time between drinks.

Look at the distress it puts your dear wife or mother to. Waiting dinner or supper while you are up town, disciplin' up. Do you wonder that they have to warm up your sausages and potatoes? Furthermore, do you wonder that they get puffed when you go to the bed without partaking of same? Of course, you often save those dear ones the trouble of cooking your breakfast, but you must remember it is unpleasant listening to you cough and gag in endeavoring to get a morning drink to stick.

Look at the distress that are in our town of Blairmore. Our neighboring towns have their share as well. My heart often grieves for those poor lost souls as I pass them on my way to the Albert or from the Comopolitain to my office. Poor devils. I wish I had enough real money to buy them all a drink.

Look at the so-called reformed drinkers we have in our midst. They all say weakly, "No, thank you, I have cut it out." I could mention a dozen of them but I daresay they all have the gnawing stomach, hunger for the stimulant that their system was so used to.

Now, fellow citizens, when you read this short article you will realize my position and understand why I want you to keep sober and pay up, as this is going to be a hard winter and I would like to pay the local bar-keepers what I owe them, so that my credit will be good until spring.

If this article is properly appreciated, I will be only too pleased to write others, dealing with the subject more minutely and giving past experiences to prove my words.

Thanking you, Mr. Editor, for your valuable space.

Yours truly,
LOWERING HENNESSEY'S

Tonsure
Tonight if you feel dull and stupid, or bilious or constipated, take a dose of Chamberlain's Tablets and you will feel all right tomorrow. For sale by all dealers.
